

DOMESTIC DEHUMIDIFIER (35 > 45sqm)

SUKI 12

The SUKI 12 is a quiet, lightweight, modern looking appliance, suitable for a 1 bedroom unit or small office and a variety of situations where a large extraction unit is not required. This dehumidifier has dial control to make operations simple and easy. A continuous drainage hose can be easily fitted if required. An automatic shut-off system activates when the holding tank is almost full, enabling the dehumidifier to run 24 hours per day, when required.

Benefits:

- Will switch back on after power disruption
- Quiet operation (low noise level)
- Compact modern design
- Easy dial control for setting desired humidity
- Water level visible from semi clear holding tank
- SUKI quality brand

Specifications:

Capacity per day	12 litres
Weight	8.6 kg
Noise level at a distance of .5m/2.5m	37 dB
Running Costs	approx. \$0.04/hr - \$0.96 24 hrs
