

# DOMESTIC DEHUMIDIFIER (50 > 70sqm)

## FRAL 16

The **FRAL 16** is a quiet, lightweight, modern looking machine, suitable for 1 – 2 bedroom units and a variety of situations where a larger unit is not required.

This dehumidifier has dial control to make operations simple and easy and a continuous drainage hose can be easily fitted if required. Sturdy castors on the base enable the unit to be moved easily over wooden, carpeted or tiled floors. The automatic shut-off when the water bucket is full, enables the machine to run 24 hours per day, when required.

### Benefits:

- Will switch back on after power disruption
- Quiet operation
- Compact modern design
- Easy dial control for setting desired humidity
- Automatic shut-off
- Castors for easy moving over carpet and tiles
- FRAL quality brand

### Used in:

- 1 – 2 bedroom units
- Home computer room
- Small office/boardroom
